Please check with us before printing your own ingredient labels. Listings are subject to change!

Our stock makeup is pre-labeled with ingredients listed by name (INCI Name) in descending order of predominance, shade name, net weight, and country of manufacture. (The “may contain” section allows us to list one generic label for all shades in the same group).

Our product liability insurance will not apply on any product that has been altered and or repackaged.

This includes but is not limited to adding or changing our formulation on any way (adding essential oils, etc.) repackaging bulk into your own components.

Products sold under your brand are your responsibility.
